

## Glass Bottle Apps at a Glance

We are Glass Bottle Apps, an independent, Toronto based app development team working to create elegant tools to simplify our lives and everyone else's by helping everyone save more and stress less. We have several apps and games available for iPhone, iPad, and Android devices, as well as original web and video features.

### Apps and Games

Since we started in 2013, we have grown from three original apps to about ten specialized, focused, and elegant tools that have been downloaded thousands of times. We value simplicity and efficiency and we aim to have that reflected in our easy-to-use apps.

Have an app idea you want to make a reality? We offer development services to do just that. Simply send us an email for a quote.

### Media

#### glassbottleapps.com

The [glassbottleapps.com](http://glassbottleapps.com) website contains app info, news, blogs and articles covering GB Apps development, phones, easy recipes, and other money saving tips.

#### Glass Bottle Apps on YouTube

The Glass Bottle TV YouTube channel contains app demos, playthroughs, money saving tips, behind the scenes videos and other fun shorts.

### Apps for Business

Mobile experiences are becoming a larger and larger part of how businesses interact with their customers. From simply providing information via a mobile-friendly site to managing the entire relationship over mobile apps and web services.

Glass Bottle Apps wants to help you boost your image and your brand. We can do this by skinning versions of our apps (changing the appearance) with your branding and with content tailored to your products and services, or working with you do develop apps customized to your business.

### The Team:

#### Kenji F – Co-founder

Kenji is primarily responsible for product development. Kenji picked up graphics and writing skills from the Golden Words student newspaper while studying engineering at Queen's University.

Having self taught himself Java, Objective C, and PHP, Kenji does the app development, writing web content and press materials, and promotional materials for Glass Bottle. He also did the original graphic design work before Tomi joined the team late in 2014. Kenji brings his technical skills, hard work, social media savvy, and ability to learn quickly to the Glass Bottle team.

#### Rob T – Co-founder

Rob is primarily responsible for the business side of Glass Bottle Apps. Rob brings many years of sales experience, including corporate sales and consumer sales in the mobile phone industry. Rob is currently working at an event venue managing corporate events. Rob handles relations with app marketplaces, web hosting providers, advertisers and clients. Rob brings his business skills and sales experience to the Glass Bottle team.

#### Tomi F – Designer

Tomi has joined the team as designer and is responsible for graphic design, video editing and the overall user experience. Tomi is a student in a unique Design Studio program, which combines visual arts training with computer skills. She is also an avid gamer. Tomi brings her graphics skills and a keen eye for design to Glass Bottle Apps.

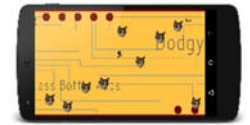

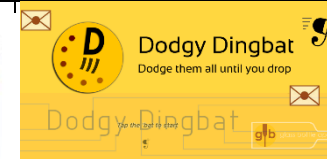

## The Apps

Fundometer is a unique personal fundraising thermometer that helps keep track of their savings goals. The friendly thermometer display will show you how far you have come, and how much you have to go. No bank information necessary.

Ever wonder if you were getting a better deal if you ordered the glass or the bottle at a restaurant? Now you can use Glass or Bottle to see if the glass is overpriced or not?

A fast-paced, easy-to-pick-up game featuring a dingbat and a pipe full of spam. How long can you survive when all you can do is tap to jump? Try all four game modes and the different skins.

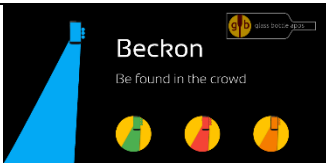

Get the best unit price every time with Unit Pricer where you can compare up to four items at a time, save them for later and share them with your friends.

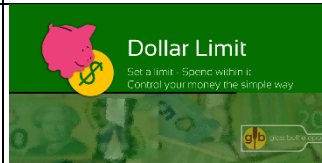

Like Glass or Bottle, but for beer. See if you are getting a better deal by ordering pints or a pitcher.

Whack a Leader features leading federal politicians in Canada and the US. The game is more than just another distraction, it gives players a fun way to participate politics by whacking any or all of the candidates.

Meeting in a crowded square seemed like a good idea at the time, but now how are you going to stand out so your friends can find you? Use Beckon to turn your phone into a beacon so your friends can find you quickly and get to your show, dinner, or meeting on time.

Dollar Limit is the simplest way to keep a lid on your spending. Simply set a daily dollar limit and track your spending against it. Dollar Limit will show you how much you have left to spend.

This game challenges you to think fast and helps you practice mental math to make you lightning fast with \$\$\$\$. The game is as simple as "Come up with \$1.70 in change". But you're under the clock, just as you would be if you were working as a cashier.
